## User switch with custom restrictions in Symfony (user-switch-with-custom-restrictions-in-symfony)

An example on how we added extra rules to the switch user functionality of the Symfony security component.

[READ MORE → \(USER-SWITCH-WITH-CUSTOM-RESTRICTIONS-IN-SYMFONY\)](#)

---

01/07/2016 • **Kevin Vandenborne**

## Debugging vendors on a virtual machine or container (debugging-vendors-on-a-virtual-machine-or-container)

Learn how to modify, debug or fix vendors in your projects when they are hosted on your containers or your virtual machine.

[READ MORE → \(DEBUGGING-VENDORS-ON-A-VIRTUAL-MACHINE-OR-CONTAINER\)](#)

---

20/06/2016 • **Joeri Verdeyen**

## Symfony Components in a Legacy PHP application (symfony-components-in-a-legacy-php-application)

A set of snippets showing you how to integrate Symfony Components (Routing, Forms, Validation, DependencyInjection, VarDumper, ..) in a Legacy PHP application

[READ MORE → \(SYMFONY-COMPONENTS-IN-A-LEGACY-PHP-APPLICATION\)](#)

---

16/12/2015 • **Joeri Verdeyen**

## Docker PHP development flow (docker-php-development)

Our trip to a fun, but still imperfect development environment.

[READ MORE → \(DOCKER-PHP-DEVELOPMENT\)](#)
